Jockeys Doggett and Sims Fall Into Soft Spots.

MUSCOVY COLT'S FAST TRIAL

Jockey Pickering Exonerated by the Board of Control.

Jockey Sam Doggett, the boy who was rement of Hattle Slack, seventeen years old leased from the Ehret Stable on the ground of incompetency, was yesterday engaged to ride for the Oneck Stable at a salary of \$8,000 physician, with William H. Moore, a student a year. Dr. Knapp is to be congratulated on in her father's office. securing Dosgett's services, for this lad is painstaking, honest and a zealous worker. He performed a feat yesterday that not one how in a hundred would have had the sense or courage to attempt. He had the mount on Dr. Hasbrouck in the opening event, and Me at the start his bridle-rein brike. Instead of stopping the horse, on whom thousands happy.

The attendance at Sheepshead Bay vesterday was very light. It is said that the poolrooms are responsible for time, but there is a
doubt. It has been suggested that the only
way the Association can get rid of the poolroom inegous is to adopt the Paris mutuel
system entirely. It is doubtful if this would
work well. Yesterday not more than 100
persons invested in mituels in each race.
This shows that the system is unpopufar as compared with the books. That
the mutuel system would be incomparably better and would do much
towards parifying racing there is no
uonb. There would then be no necessity for
insting out the book of this or that owner to
learn whether his horse was trying, and the
turn would be rid of other evils. The associations, however, are not anxious to furnish
pure soort. They seek the inighty dollar,
and as the revenue from the books is greated
than the percentage the mutuels would turnish, it is probable that the bookes will stay.

Mr. M. F. Dwyer plunged heavily on keginatu yesterday. His commissioners bet \$8,000 for him, and then the bookles refused to take any more. Mayor Grant also had a swell bet en the straus colt, and from the City Hall to the Centre street poorcoms a steady stream of politicians and city employees flowed. All had the tip on the Frak Commissioner's horse, and went down on it. Reginald found the distance too far and died so fast in the final furiong that Courtship was enabled to get up and beat him out a neck. Talls was the reason there were so many gloomy faces in the city departments yesterday. The news of the arrival of the cholera ship had nothing to do with it.

three winners of yesterday, are the get of Sir Modred. The horse who first brought Sir Modred into prominence as a sire also started in the linest race and finished next to last. In the language of the talent, "Tournament was beaten a thousand yards."

The Board of Control gathered in solemn conclave yesterday, and after considerable deliberation, arrived at a conclusion that was long ago reached by every one who saw the race in which Julio fell at Monmouth Park, that Pickering was not to blame for the accident. They declared that Julio tried to savage schuyikili, and in doing so fell and

broke his neck. Then two poor little jockeys were grabiously given permission to ride, the pipe of peace was smoked and the big ohlers retired to their wig wans.

Grover Cleveland is the most conspicuous and interesting figure in the world to-day.

His complete life story has never been printed.

On Sunday THE WORLD will print the history of this interesting man, from the pens of

RICHARD WATSON GILDER, WILSON S. BISSELL, GEORGE F. PARKER.

That it will be complete goes without saying. The article will be accompanied by an

Nevertheless, it is likely enough that Mr. Gladstone's phenomenal buoyancy is, in part, attributable to the fact that hard work is the breath of life to him. It is quite conceivable that if he refired to liawarden the termination of his wonder-ful career might be hastened instead of delayed. Is hard work, then, it may be asked, the secret of old age?
